NOMINATION BALLOT VOTING SYSTEM—LOGIC & ACCURACY DEMONSTRATION

The Office of the Election Supervisor (“OES”) will conduct a logic and accuracy demonstration of the electronic system used for candidate nomination voting. OES has scheduled the demonstration to occur on Thursday, June 24, 2021 10:30 am at the OES office in Washington, D.C., 1990 M Street, NW, Suite 650. Floor nominated candidates are invited to designate an observer to attend the demonstration (for candidates affiliated on a slate, the slate may designate one observer).

The demonstration is available for in-person attendance and via video conference. For observers attending in-person, proof of vaccination against COVID-19 is required to enter the OES office. For participation via video conference, slates or unaffiliated candidates should designate an observer to receive the video conference link so they may log in to the demonstration.

The logic and accuracy demonstration will be performed using a test set of ballots. Paper versions of the electronic ballot will be marked and the votes reflected on the paper will be recorded using the electronic system during the test.

Dated: June 17, 2021
Washington, D.C.
