CONVENTION FLOOR ACCESS RULE FOR CANDIDATES
28th INTERNATIONAL CONVENTION OF THE
INTERNATIONAL BROTHERHOOD OF TEAMSTERS

A candidate or slate may obtain a credential for a still photographer to enter the Convention floor to photograph the nomination, seconding or acceptance of the candidate or members of the slate.

The credential may be obtained, on written request to the Office of the Election Supervisor. Only one photographer credential will be issued for nominees associated with a slate. An independent candidate may request one photographer credential.

Compliance with Media Access Rule II(B) is required. Specifically, artificial lighting devices of any type, such as flash, strobes, lighting stands and the like, will not be permitted on the Convention floor.

A credentialed photographer may be excluded from the floor if the photographer disrupts or interferes with the nominations proceedings.

The credential will allow access to the convention floor only during the nomination proceedings for the candidate or slate that sponsors the credential. It will not allow access to the convention floor during any other proceedings. Access at other times shall be in accordance with the news media access rules.

Richard W. Mark
Election Supervisor
